_name_eq

demoModels.Demo.find
_all_where_id

aestate.work.Annotation.
SelectAbst

```
graph LR; A[demoModels.Demo.find_all_F_where_id_eq_and_name_eq] --> C[aestate.work.Annotation.SelectAbst]; B[demoModels.Demo.find_all_where_id] --> C;
```

The diagram illustrates a mapping from two specific method calls to a common target. On the left, there are two white rectangular boxes. The top box contains the text 'demoModels.Demo.find_all_F_where_id_eq_and_name_eq' and the bottom box contains 'demoModels.Demo.find_all_where_id'. Blue arrows point from the right side of each of these boxes to a single gray rectangular box on the right. This gray box contains the text 'aestate.work.Annotation.SelectAbst'.
