

Exception

```
classDiagram
    class Exception {
    }
    class SteadyPgError {
    }
    SteadyPgError --|> Exception
```

The diagram illustrates a class hierarchy. At the top is a class box labeled 'Exception'. It has a white background and is divided into three horizontal sections. Below it is a class box for 'aestate.opera.DBPool.steady\_pg.SteadyPgError'. This box has a gray background and is also divided into three horizontal sections. A blue arrow with an open triangular head points from the top section of the 'SteadyPgError' box to the bottom section of the 'Exception' box, indicating that 'SteadyPgError' inherits from 'Exception'.

aestate.opera.DBPool.steady  
\_pg.SteadyPgError
