

aestate.dbs._mysql.Fields.left_par

```
graph LR; A[aestate.dbs._mysql.Fields.left_par] --> B[aestate.dbs._mssql.Fields.parse_field]; A --> C[aestate.dbs._mysql.Fields.parse_field]
```

The diagram illustrates a call to the `parse_field` method. A source box on the left, labeled `aestate.dbs._mysql.Fields.left_par`, has two arrows pointing to destination boxes on the right. The top destination box is labeled `aestate.dbs._mssql.Fields.parse_field`, and the bottom destination box is labeled `aestate.dbs._mysql.Fields.parse_field`.
