

Exception

```
classDiagram
    class Exception {
    }
    class PooledPgError {
    }
    Exception <|-- PooledPgError
```

The diagram illustrates a class hierarchy. At the top is a class box labeled 'Exception'. It has a white background and a thin gray border, divided into three horizontal sections. Below it is a class box for 'aestate.opera.DBPool.pooled_pg.PooledPgError'. This box has a gray background and a thick black border, also divided into three horizontal sections. A blue arrow with an open triangular head points from the top section of the lower box to the bottom section of the 'Exception' box, indicating that 'PooledPgError' inherits from 'Exception'.

aestate.opera.DBPool.pooled
