

IntEnum

```
classDiagram
    class IntEnum
    class "aestate.work.Modes.EX_MODEL" {
        + SELECT
        + UPDATE
    }
    "aestate.work.Modes.EX_MODEL" --|> IntEnum
```

The diagram illustrates a generalization relationship. At the top is a class box labeled 'IntEnum' with two empty compartments. Below it is a class box for 'aestate.work.Modes.EX\_MODEL' with three compartments: the top one contains the class name, the middle one contains the methods '+ SELECT' and '+ UPDATE', and the bottom one is empty. A blue arrow with an open triangular head points from the 'aestate.work.Modes.EX\_MODEL' box up to the 'IntEnum' box, indicating that 'aestate.work.Modes.EX\_MODEL' is a specialization of 'IntEnum'.

aestate.work.Modes.EX  
\_MODEL

+ SELECT  
+ UPDATE
