

Exception

```
classDiagram
    class Exception {
    }
    class PersistentDBError {
    }
    PersistentDBError --|> Exception
```

The diagram illustrates a class hierarchy. At the top is a class box labeled 'Exception'. It has a light gray header and two empty white rectangular compartments below it. Below the 'Exception' box is a blue arrow pointing upwards, with a hollow triangle at its tip. This arrow originates from the bottom of a class box for 'aestate.opera.DBPool.persistent_db.PersistentDBError'. This bottom box has a dark gray header and two empty light gray rectangular compartments below it.

aestate.opera.DBPool.persistent
_db.PersistentDBError
