

AttributeError

```
classDiagram
    class AttributeError
    class astate_exception_FieldNotExist["aestate.exception.FieldNotExist"]
    astate_exception_FieldNotExist --|> AttributeError
```

The diagram illustrates an inheritance relationship. At the top is a white box representing the 'AttributeError' class, divided into three horizontal sections. Below it is a gray box representing the 'aestate.exception.FieldNotExist' class, also divided into three horizontal sections. A blue arrow with an open triangular head points from the top section of the gray box to the bottom section of the white box, indicating that 'aestate.exception.FieldNotExist' inherits from 'AttributeError'.

aestate.exception.FieldNot
Exist
